

### **Public Notice Regarding Stimulus Act Funding**

The Jackson Hole Airport Board will receive funds authorized by the American Recovery and Reinvestment Act of 2009, Public Law 111-005, 115 Stat. 597 ("ARRA"). The following two ARRA investments are being funded at the Jackson Hole Airport:

- \* Installation of portions of a checked baggage inspection system (CBIS) and remodeling of portions of the passenger terminal building necessary for such installation; and
- \* Overlaying of the Airport's 6,300 x 150 foot runway with a porous friction surfact to preserve its structural integrity.

The checked baggage inspection system is being funded by a grant from the Transportation Security Administration, No. HSTS04-09-H-CTXXXX. The grant is expected to fund 95%, or \$5,300,000, of the total estimated \$5,578,947 cost of the CBIS system and related improvements.

The runway overlay is being funded by a grant from the Federal Aviation Administration, DOT-FA09NM-10XX. That grant is expected to fund 100% or \$5,000,000 of the estimated \$5,000,000 cost of the runway overlay project.

As President of the Jackson Hole Airport Board, I certify that the infrastructure investments described above have received the full review and vetting required by law, and accept responsibility that such investments are an appropriate use of taxpayer dollars.

Additional information regarding ADDA funding is available at [www.recovery.gov](http://www.recovery.gov)
