

Instrument Approaches from North (Runway 19)

Notes:

- ❖ Animation presents instrument arrival procedures for historical, current, and Part 150 potential arrival on Runway 19 (Arriving from the north)
- ❖ Current NextGen GPS procedure was initiated in 2012
- ❖ Shows continued shift of flight paths to the east away from both the current critical area boundary and the additional priority area. The Priority Area includes much of the Snake River.
